

SCHOOL

UNIVERSITY OF CINCINNATI

2006-present

College of Design, Architecture, Art, and Planning

Digital Design class of 2011

HILLIARD DARBY HIGH SCHOOL

2002-2006

WORK

BLUE DIESEL

April 2008 - June 2008

I worked with Blue Diesel on the production of multiple client web sites as well as creating and ideating logo concepts. I also worked on many internal marketing and team building pieces, both digitally and in print.

HELLO DESIGN

September 2008 - December 2008

April 2009 - June 2009

At Hello I assisted on large scale projects with production and QA. I was also responsible for valid and cross browser compatible CSS and HTML as well as early concepts and designs for web and mobile devices.

TRANSMISSIONS LLC

September 2009 - December 2009

I worked mainly in AS3 while working with Transmissions. Outside of that project I worked with HTML, CSS, JavaScript and Wordpress.

LUXURIOUS ANIMALS

April 2010 - June 2010

While with Lux Animals I was a part of their development team. I learned a lot about AS3 as well as HTML 5 and CSS 3 from experienced developers.

VOLUNTEERING

I am an active volunteer at Milestones Inc. where, under the direction of an instructor, I assist mentally and physically disabled children and adults on horseback.

An immensely rewarding experience, Milestones gets me outside and gives me the opportunity to be around horses, a hobby I all but gave up when I came to school.

SKILLS

I am confident with AS3, HTML, CSS, Wordpress, After Effects, Photoshop and Illustrator. I also have limited experience with PHP and MySQL.

I like a challenge and will do my best to finish any project efficiently and to the best of my ability. I don't like being bored, and challenge myself to learn something from every project I work on.
